Ahmed Ibrahim Elmasri

Backend Developer — PHP / Laravel

Heliopolis, Cairo, Egypt • +20 115 407 3168 • ahmedlmmasry@gmail.com • linkedin.com/in/ahmed-lmasri • github.com/ahmedlmasry

PROFESSIONAL SUMMARY

Backend Developer with 1.5+ years of hands-on experience building RESTful APIs, admin dashboards, and third-party integrations with PHP and Laravel. Experienced in designing relational databases, implementing authentication and authorization, real-time features (Pusher/WebSockets), caching with Redis, and background processing with queues. Currently building AI-driven chatbot integrations with Meta platforms. Committed to clean, maintainable code following SOLID principles and proven design patterns.

EXPERIENCE

Backend Developer May 2025 – Present

Stitch — AI-Driven Solutions Heliopolis, Egypt · Hybrid

- Built interactive admin dashboards in native PHP, giving teams visibility into chatbot activity and business data.
- Designed and implemented REST APIs to integrate internal systems with the company's AI chatbot platform.
- Created and managed conversation flows on Meta (Facebook) platforms and integrated them with the AI chatbot.
- Improved application performance and user experience through query optimization and scalable, modular code.

Backend Developer Jan 2025 – Mar 2025

KyanLabs — Web Solutions Maadi, Egypt · Onsite

- Designed and built Laravel REST API endpoints connecting backend services with front-end applications.
- Developed and improved API endpoints powering the company's official website.
- Maintained clean, testable, and well-structured code following Laravel best practices and code-review feedback.

Backend Developer Intern May 2024 – Aug 2024

Ipda3 Tech Mansoura, Egypt · Hybrid

- Built Laravel REST API backends and admin panels for two mobile apps: **Sofra** and **Blood Bank**.
- Implemented FCM push notifications and worked with mobile developers on API contracts.

PROJECTS

Multi-Publisher News Platform github.com/ahmedlmasry/News

- Full-stack news platform built with Laravel 12: admin panel, responsive frontend, and a REST API for mobile clients.
- Multi-guard auth (Admin/User), real-time notifications via Pusher, Redis caching, and queued background jobs.
- Security hardening with CSRF protection, request validation, and role-based access control.

Stack: PHP, Laravel, Livewire, MySQL, Redis, Pusher, Queues, jQuery/AJAX

Multi-Vendor E-Commerce Store github.com/ahmedlmasry/Store

- Multi-vendor store with Breeze/Fortify, two-factor and social login, plus custom multi-guard authentication.
- Stripe payments, real-time updates over WebSockets (Pusher), and localization for multiple languages.
- Authorization with Gates & Policies; architecture built on the Repository pattern and model Observers.

Stack: PHP, Laravel, MySQL, Stripe, Pusher, Fortify, Socialite

Sofra — Food Ordering App (API + Admin) github.com/ahmedlmasry/Sofra

- Marketplace backend where restaurants list menus and customers place and track orders, with FCM notifications.

Blood Bank — Donor Matching App (API + Admin) github.com/ahmedlmasry/bloodbank

- Backend connecting blood donors with patients in need through donation requests and FCM notifications.

TECHNICAL SKILLS

Languages	PHP, SQL, JavaScript, HTML, CSS
Frameworks & Tools	Laravel, Livewire, Filament, Bootstrap, jQuery/AJAX
Databases & Caching	MySQL, Redis
APIs & Integrations	RESTful APIs, Meta (Facebook) APIs, Stripe, Pusher/WebSockets, Firebase Cloud Messaging
Practices	SOLID principles, Design Patterns (Repository, Observer), Queues & Jobs, Git/GitHub

EDUCATION

B.Sc. in Computer Science and Information Technology — Mansoura University Sept 2017 – May 2021
